### MANUFACTURING CHEMISTS.

#### *Fluid Extracts.*

We manufacture a full line of fluid extracts, both official and non-official, making a specialty of the newer editions to the materia medica. By our process we, as fully as possible, exhaust the medicinal principles of the drug. By the strictest care taken in the selection of the crude material, and the most approved process of manufacture, operated by the highest skill, we succeed in producing fluid extracts which are unequalled and rarely equaled for fullness and constancy of strength.

#### *Medicated Lozenges.*

Lozenges are of use in pharyngeal troubles that yield to ordinary medication. By being slowly dissolved, the medicament they contain is brought into contact with the diseased mucous membranes, and hence a beneficial influence, local as well as general, is exerted. In this respect they are of inestimable value to public speakers, teachers, singers, etc., as they are handy to carry about the person. In certain diseases of children, in worms, dyspepsia, and in cases where it is desirable to carry the remedy about the person (as with travellers), the lozenge is a usual form for a medicament. We manufacture 50 formulæ.

Special formulæ made to order of any desired size, shape, color, or flavor, when ordered in quantities of 3 lbs. or more.

#### *Elixirs, Wines and Syrups.*

We desire to call the attention of pharmacists to our preparations embraced under this head.

Prepared with all the improvements which long practical experience and high medical authority can suggest, we offer them as combining with therapeutical value, agreeableness of taste, and elegance in appearance.

*We put them up in pounds, half gallons and demijohns.*

N. B.—When ordered simply in "bulk" these articles will be sent in half-gallon bottles. If desired in four ounce, one or five pound bottles, or in demijohns, please specify.

#### —SUGAR—

#### *Gelatine=Coated Pills,*

**Oviform and Round.**

Our pills are made entirely by hand, from the purest materials, and are sugar-coated by a method avoiding the use of heat above 90° F., without impairing either their efficacy or solubility.

For solubility, regularity of shape and beauty of finish they are excelled by none.

They are coated while the mass is yet soft, and will remain in same condition for years.

Special formulæ made and coated to order, when desired, in lots of 3,000 or upwards.

### SPECIALTIES AND SUNDRIES.

Cascara Cordial. Sanguis, Bovinus Exsiccat. Liquor Ergotæ Purificatus. Chlor-Anodyne-Empty Capsules. Lactated Pepsine. Saccharated Pepsine. New Remedies. Berberina Hydrochlorate (Hydrastin Mur). Berberina Sulphate (Hydrastin Sulphate). Choleate Sodium Chem. Pure Chloroform. Chaulmoogra Oil. Crude Petroleum Mass. Dialyzed Iron. Distilled Ext. Witch Hazel. Dr. Warburg's Tincture. Extract Malt. Glycerated Dialyzed Iron. Gurjun Balsam. Hydrastia (White Alkaloid of Golden Seal). Menthol. Monobromated Camphor. Nitrate Amyl Pearls. Picrate Ammonium. Pepsine Liquid Concentrated. Pepsine and Lacto-Phos. Lime Lozenges. Pure Cold Refined White Norwegian Cod Liver Oil. Quinine Elixir. Solution Sclerotic Acid. Syrup Iodide Iron. Verba Santa Lozenges. Etc., Etc., Etc.

### CONCENTRATIONS.

Our list of Concentrations comprises the proximate medicinal principles of the several plants named, either combined in the form of a powder, consisting of two or more constituents, or isolated in the form of a powdered alkaloid or resinoid. These are a very eligible form in which to administer medicines, and are highly prized by many. *Put up in ounce bottles and bulk.*  
For Descriptive Circular and Price List of above, send to PARKE, DAVIS & CO., Detroit, Mich.

Entered according to Act of Congress in the year 1882, by  
SAMUEL B. HOPPIN, M. D.,  
In the Office of the Librarian of Congress, at Washington, D. C.

---

## AN ACT

*To provide for the registration of all practitioners of medicine and surgery.*

SECTION 1. *Be it enacted, &c.,* That the prothonotary of each county shall purchase a book of suitable size, to be known as the medical register of the county (if such book has not been purchased already), and shall set apart one full page for the registration of each practitioner, and when any practitioner shall depart this life, or remove from the county, he shall make a note of the same at the bottom of the page, and shall perform such other duties as are required by this act.

SECTION 2. Every person who shall practice medicine or surgery, or any of the branches of medicine or surgery, for gain, or shall receive or accept for his or her services, as a practitioner of medicine or surgery, any fee or reward, directly or indirectly, shall be a graduate of a legally chartered medical college or university, having the authority to confer the degree of doctor of medicine (except as provided for in section five of this act) and such person shall present to the prothonotary of the county, in which he or she resides or sojourns, his or her medical diploma, as well as a *true copy* of the same, including any endorsements thereon, and shall make affidavit before him that the diploma and endorsements are genuine; thereupon, the prothonotary shall enter the following in the register, to wit: The name in full of the practitioner, his or her place of nativity, his or her place of residence, the name of the college or university that has conferred the degree of doctor of medicine, the year when such degree was conferred, and in like manner any other degree or degrees that the practitioner may desire to place on record, to all of which the practitioner shall likewise make affidavit before the prothonotary, and the prothonotary shall place the copy of such diploma, including the endorsements, on file in his office, for inspection by the public.

SECTION 3. Any person, whose medical diploma has been destroyed or lost, shall present to the prothonotary of the county, in which he or she resides or sojourns, a duly certified copy of his or her diploma; but if the same is not obtainable, a statement of this fact, together with the names of the professors whose lectures he or she attended, and the branches of study upon which each professor lectured, to all of which the practitioner shall make affidavit before the prothonotary, after which the practitioner shall be allowed to register, in manner and form as indicated in section two of this act, and the prothonotary shall place such certified statement on file in his office for inspection by the public.

SECTION 4. Any person who may desire to commence the practice of medicine or surgery in this state after the passage of this act, having a medical diploma issued or purporting to have been issued by any college, university, society or

association in another state or foreign country, shall lay the same before the faculty of one of the medical colleges or universities of this commonwealth for inspection, and the faculty, being satisfied as to the qualifications of the applicant, and the genuineness of the diploma, shall direct the dean of the faculty to endorse the same, after which such person shall be allowed to register, as required by section two of this act.

SECTION 5. Any person who has been in the continuous practice of medicine or surgery in this commonwealth since one thousand eight hundred and seventy-one, without the degree of doctor of medicine, shall be allowed to continue such practice; but such person shall nevertheless appear before the prothonotary of the county, in which he or she resides, and shall present to him a written statement of these facts, to which the practitioner shall make affidavit. Thereupon, the prothonotary shall enter the following in the register, to wit: The name in full of the practitioner, his or her place of nativity, his or her place of residence, the time of continuous practice in this commonwealth, and the place or places where such practice was pursued, to all of which the practitioner shall likewise make affidavit, and the prothonotary shall place the certified statement on file in his office for inspection by the public.

SECTION 6. Every practitioner who shall be admitted to registration, shall pay to the prothonotary one dollar, which shall be compensation in full for registration, and the prothonotary shall give a receipt for the same.

SECTION 7. Any practitioner who shall present to the faculty of an institution for endorsement, or to a prothonotary, a diploma which has been obtained fraudulently, or is in whole or in part a forgery, or shall make affidavit to any false statement to be filed or registered, or shall practice medicine or surgery without conforming to the requirements of this act, or shall otherwise violate or neglect to comply with any of the provisions of this act, shall be deemed guilty of misdemeanor, and, on conviction, shall be punished, for each and every offence, by a fine of one hundred dollars, one-half to be paid to the prosecutor, and the other half to be paid to the county, or be imprisoned in the county jail, of the proper county, for a term not exceeding one year, or both, or either, at the discretion of the court.

SECTION 8. Nothing in this act shall be so construed as to prevent any physician or surgeon, legally qualified to practice medicine or surgery in the state in which he or she resides, from practicing in this commonwealth; but any person or persons opening an office or appointing any place where he or she may meet patients or receive calls, shall be deemed a sojourner, and shall conform to the requirements of this act.

SECTION 9. This act shall take effect on the first day of June, one thousand eight hundred and eighty-one.

SECTION 10. That all acts or parts of acts, heretofore passed and inconsistent with this act, be and the same are hereby repealed.

*Approved*—The 8th day of June, A. D. 1881.

**LIQUID**  
**PANCREOPEPSINE**  
 LIQUOR OR PANCREATICUS COMP.  
**DIGESTIVE FLUID.**

This Preparation contains in an agreeable form the natural and assimilative principles of the digestive fluid of the stomach, comprising **Pancreatine, Pepsin, Lactic and Muriatic Acids**. The best means of re-establishing digestion in enfeebled stomachs, where the power to assimilate and digest food is impaired, is to administer principles capable of communicating the elements necessary to convert food into nutriment.

The value of **Liquid Pancreopepsine** in this connection has been fully established, and we can recommend it with confidence to the Profession as superior to Pepsine alone. It aids in digesting animal and vegetable cooked food, fatty and amylaceous substances, and may be employed in all cases where, from prolonged sickness or other causes, the alimentary processes are not in their normal condition.

It is usually given in tablespoonful doses after each meal, with an equal quantity of water or wine, or alone, as it is most pleasant and agreeable to the taste.

Put up in Sixteen-ounce French Square Bottles; \$1.00.

PREPARED ONLY BY

**WM. R. WARNER & CO.,**

*Manufacturers of Soluble*

**Sugar-Coated Pills of Soluble Quinine Bi-Sulphate,**

CONTAINING 1-2, 1, 2, 3, AND 5 GRAINS EACH,

**No. 1228 Market Street, Philadelphia.**

SPECIFY "WARNER & CO.'S," AND, WHEN PRACTICABLE, ORDER IN BOTTLES OF ONE HUNDRED PILLS.

# JOHNSTONE'S IMPROVED ADAPTABLE POROUS FELT SPLINTS

AHL'S SPLINT MANUFACTURING COMPANY, Limited,

123 & 125 South Eleventh St.

PHILADELPHIA, PA.

THE ADAPTABLE POROUS SPLINTS, invented and improved by W. H. Johnstone, have been tested extensively in both civil and military practice for a number of years, and have been endorsed and recommended in the most unqualified manner by the celebrated and distinguished Surgeons of America.

Their porosity is a peculiar and a valuable property. While the material is firm and insoluble, it permits readily the passage of air and fluids, so that, on one hand, the heat from the inflamed surface, the perspiration, and the morbid exhalations, are not confined, to the detriment of the patient, as is the case in every other kind of splint, but pass off freely; and on the other hand, lotions of cold or warm water, medicated or not with weak alcohol, carbolic acid, ammonia, tincture, solutions of the sulphites, etc., can be constantly applied without disturbing the dressings. This, it will readily be seen, is a most invaluable property when the parts are bruised, lacerated, filled with extravasated blood, or erysipelatous, and give these splints a conspicuous advantage over all others.

From FRANK H. HAMILTON, M. D., Professor of Fractures and Dislocations in the Bellevue Hospital Medical College, author of "A Treatise on Fractures and Dislocations," etc.

Having examined carefully JOHNSTONE'S IMPROVED ADAPTABLE POROUS FELT SPLINTS, I feel warranted in recommending them to the Profession as superior to all other manufactured splints now in use. They possess all the essential qualities of a good splint, having firmness, pliability and lightness.

FRANK H. HAMILTON, M. D.,

Prof. Military Surgery and Fractures and Dislocations, Bellevue Hospital C.A.

From PROF. D. HAYES AGNEW, Prof. Surgery, University of Penna.

1611 CHESTNUT STREET, PHILADELPHIA, February 6th, 1879.

The Adaptable Felt Splints, formerly known as those of Dr. Ahl, with the improvement now made by W. H. Johnstone, which renders them in every way superior to the former, I regard as very excellent appliances in the treatment of fractures.

D. HAYES AGNEW,

Prof. Surgery, University of Pennsylvania.

Cuts illustrating the different Splints constituting a Complete Set.

## SPECIAL NOTICE TO THE PROFESSION AND TRADE.

Our policy heretofore in the introduction of JOHNSTONE'S IMPROVED ADAPTABLE POROUS FELT SPLINTS, has been to confine the sales and business negotiations directly to the Doctors themselves, declining in every case to sell our goods through Dealers; we having assured the Profession generally, both through our agents and catalogues, that JOHNSTONE'S IMPROVED SPLINTS could only be obtained by subscription.

We wish to announce, that owing to the large demand for our goods and the constant importunity on the part of Surgeons everywhere to place our Splints on sale with their Instrument Dealer or Druggist, to afford them greater convenience and facility in obtaining the pieces in duplicate, we have at last acceded to that request, and hereafter JOHNSTONE'S CELEBRATED FELT SPLINTS can be obtained at most dealers in Instruments and Drugs throughout the United States, at the same price which they were heretofore sold, viz:

A complete set, embracing fifty (50) pieces—twenty-five for adults and twenty-five for children—is thirty (\$30) dollars. Extra or duplicate pieces can always be obtained from your DEALER, at one dollar each.

JOHNSTONE'S CELEBRATED SPINAL JACKET, for Curvature and Deformities, have met with unparalleled success, and, from their merit, secured the unqualified endorsement and approbation of our celebrated orthopaedic specialists, and particular expression of gratitude from the patients who are wearing them. For full information, send for Descriptive Circular.

Should your Instrument dealer fail to have a supply of our Splints, and decline to carry them in stock, orders sent to us will receive prompt attention.

## "MALTO-COCOA."

We here present to Physicians what we consider the "Ne Plus Ultra" of Chocolate Preparations; made from carefully selected Caraccas Cocoa Beans (deprived of their Oil) and Granulated Extract of Malt, both finely powdered and intimately combined.

It makes in a few minutes a delicious *breakfast drink*, to be used in the place of Tea and Coffee, and is nutritious and refreshing, without having any of their deleterious effects. Is especially recommended for dyspeptics whose unpleasant symptoms are aggravated by Tea and Coffee. As a nourishing beverage during sickness or convalescence, it is unsurpassed by any of the various preparations of Malt, Cocoa or Chocolate combining in itself all the valuable properties of their separate preparations.

The value of the Extract of Malt as a nutritive and restorative agent is well known to the medical profession, forming fat and muscle and promoting the solution of farinaceous foods, and allowing by its presence in this preparation the use of Cocoa by those having delicate stomachs who find ordinary Cocoa and Chocolate too rich and heavy.

GRANULATED MALT EXTRACT.

GRANULATED MALT EXTRACT.

### GRANULATED MALT EXTRACT CONCENTRATED & IMPROVED.

In connection with our "Malto-Cocoa" we are now prepared to offer to Physicians our dry Malt Extract and would call your attention to its superiority over the various Malt preparations of the market.

1st. Being in a *dry powder* it is more economical than the sticky molasses like Malt Extracts. Your patient does *not* have to pay for water.

2d. Containing no water, it does not need any Hops to prevent fermentation, is not *bitter*, but pleasantly sweet.

3d. Being *dry*, it is readily emptied without any loss by adhering to the sides of the bottle.

4th. Does not disgust the patient by its sweetness and stickiness and will not interfere with digestion nor disarrange the stomach.

5th. Being in a dry granular state its freedom from *Glucose* and like adulterations is apparent.

6th. Is *four times* the malt strength of the Malt Extracts of the market.

7th. Contains no *starch* and is perfectly soluble in Milk, Wine and Water.

8th. Containing no alcohol it is superior to Beer and all other Malt Lignors and Malt Preparations.

9th. Can be given with impunity to nursing children dissolved in cow's milk or condensed milk.

Prepared only by MALTO-COCOA MANF'G CO.,

Philadelphia Wholesale and Retail Agency, 123 North Seventh St.

— SAMPLES SENT ON APPLICATION. —
